RESULTS

WHAT'S NEXT?

Unify with a hierarchical model to gain insight into the impact of interventions.

INTERESTED?

Source code and a cool animation showing the spread of A82V in West Africa are available at https://github.com/maxbiostat/diehl_ebola_cell_2016. A digital copy of this poster (along with code to produce most figures) can be found at https://github.com/maxbiostat/second_year_poster.
